

8 benefits of QR-code event check-in

Faster Moving Lines

QR code check-in solutions takes less time per attendee check-in. The code acts as a single pass for all possible entry points at the venue. Scans take less than 1 second!

Fewer Security Concerns

Handling crowds is not only cumbersome, but raises security concerns. No matter how many times you check and re-check, the guests end up getting listed more than once. Eliminate duplication of guest profiles with encrypted QR-codes unique to each guest.

Fewer Devices, Staff and Stationery

QR code scanners are easy to handle and operate. Check-ins not only take less time but fewer ground staff. No more clunky laptops, stationery for your staff at the registration desk.

No Power or Internet Required

iPads, Tablets and your phone can easily be used as QR code scanner. Charge them once and use it for the whole day, our solution works offline too!

Simple Training and Briefing

Your ground staff will need no training to start using QR-codes. You can cut out the whole activity of briefing them and manage them.

Go Green

A single QR code can be used as an entry pass, a lunch coupon or session check-ins. You reduce printing costs, litter and paper.

Actionable Analytics

Earlier there was no way to know when a guest arrived and left. Metrics like these can be very useful to track and analyze post-event. Your marketing and HR teams can easily integrate to their CRMs.

Save Money

Now that you know all of the above, the monetary benefits to you are a no-brainer.
